

تقرير تدقيق شامل

SEO • AEO • GEO • CRO

Makecepeit

<https://www.makecepeit.com/>

البند	القيمة
تاريخ التنفيذ	11 أغسطس 2026
السوق	الولايات المتحدة – كل المدن، لكن المنتج وطني/عالمي وليس نشاطاً محلياً
لغة الجمهور	English (US)
الفترة	خطة 90 يومًا
نوع الفحص	تصفح حي + عينة صفحات + نتائج بحث حية؛ ليس Crawl كاملاً
البيانات المغلقة	لم يتوفر دخول موثق إلى GSC أو GA4 أو Ahrefs أو Semrush

طريقة قراءة التقرير

مؤكد = شهود في الموقع أو مرجع رسمي. استنتاج = تفسير مدعوم بما شهود. تقدير نوعي = يحتاج تحققاً بأداة.
غير متحقق = تعذر الوصول إليه ولم يُفترض محتواه.

1. الملخص التنفيذي

نوع الدليل	النتيجة	السؤال
مؤكد من الصفحة الرئيسية، create، /templates، /brands،	تطبيق ويب Freemium لصناعة وتخصيص الإيصالات، مع +40 قالبًا عامًا، +348 تصميمًا مستوحى من علامات، AI، وتصدير .PDF/PNG/JPG.	ماذا يقدم؟
استنتاج من المنتج والصفحات	فرد، مستقل، أو صاحب عمل صغير يحتاج سجل دفع أو نموذجًا Mockup مصرحًا به بسرعة.	العميل المثالي
مؤكد/استنتاج	English للسوق الأمريكي مع قابلية استخدام عالمية وعمليات متعددة؛ لا توجد دلالة على استهداف مدن أمريكية بعينها.	الاستهداف الفعلي
مؤكد مع تضارب يجب إصلاحه	Freemium: البناء والمعاينة دون حساب؛ يلزم حساب للتنزيل؛ Free ثم .Weekly/Monthly/Annual Pro	نموذج العمل
استنتاج قوي من المسار	بدء البناء → التنزيل/إنشاء حساب → الترقية إلى Pro.	التحويل الأساسي
استنتاج نوعي	أساس تقني و On-Page جيد نسبيًا، لكن عمق صفحات المال والثقة والكيان والسلطة والتحويل أقل من حجم المخزون.	الوضع الحالي

أقوى 5 فرص

- تحويل المخزون الكبير إلى صفحات رأسية عميقة: Restaurant، Retail، Services، Travel، لا مجرد بطاقات وقوالب قصيرة.
- امتلاك أسئلة Receipt Fields/Identifiers/Tax/Payments غير الموجودة في قائمة المحتوى الحالية، وهي مناسبة لـ AEO و AI citations.
- استغلال AI generator والتصدير المتعدد والخصوصية كميزات مقارنة موثقة بدل عبارات عامة.
- إنشاء أصل أصلي قابل للاقتباس: Synthetic Receipt OCR Dataset أو Receipt Privacy Benchmark بمنهجية معلنة.
- خفض الاحتكاك بين Builder والتنزيل وإظهار شروط الحساب/Watermark بوضوح، ثم قياس القمع كاملاً.

أخطر 5 عوائق

- خطأ #418 React hydration شوهد في Console؛ قد يسبب عدم استقرار في التفاعل أو CLS ويحتاج إعادة إنتاج نظيفة.
- Terms و Pricing وعبارات التوفير/Watermark غير متزامنة، ما يضرب الثقة والقرار الشرائي.
- صفحات قوالب ذات نية عالية رقيقة مقارنة بـ SimpleReceiptMaker و Receipt Baker.
- وتيرة نشر كبيرة ومخزون Blog/Help واسع قد يخلق Cannibalization ومحتوى سلبيًا إذا لم يُدقق.

- ضعف أدلة الخبرة والكيان: ملفات مؤلفين ومراجعين ومصادر ودراسات حالة وذكر خارجي محدود.

الحكم الواضح

الموقع يحتاج جميع المسارات: إصلاح تقني + تصحيح عرض وتسعير + تعميق محتوى + بناء سلطة وكيان + تحسين تحويلات. نقطة البداية الأقل جهدًا والأسرع أثرًا هي: توحيد Pricing/Terms/CTA وإصلاح hydration قبل تمويل نشر جديد.

2. فهم المجال والجمهور

الخدمات والمنتجات

- أساسي: Online Receipt Builder، قوالب أعمال/صناعات، قوالب مستوحاة من علامات، AI receipt generation، حفظ وتصدير.
- فرعي: أمثلة، أدلة استرجاع/فهم الإيصالات، مقارنات بدائل، تخصيص شعار/ألوان/ضريبة/خصم/Tip، عملات متعددة.
- نموذج SEO الأنسب: SaaS SEO + Programmatic Template SEO + Service/Use-Case SEO + Content SEO. Ecommerce SEO محدود لأن المنتج اشتراك رقمي، وLocal SEO غير مناسب حاليًا.

الاعتراض	الدافع	الاحتياج	الشريحة
هل الإيصال مقبول؟ هل يظهر Watermark؟	الاحتراف، السرعة، حفظ السجلات	إثبات دفع واضح، شعار، PDF	المستقلون ومقدمو الخدمات
هل الحسابات دقيقة؟ هل يعمل دون POS؟	إصدار سريع من الهاتف	عناصر، Tax، Discounts، Cash/Card	باعة التجزئة/الفعاليات الصغار
هل يلزم حساب؟ هل البيانات خاصة؟	سهولة وبدون تثبيت	توثيق معاملة حقيقية أو نموذج شخصي	الأفراد
حقوق العلامة وعدم الإيحاء بالانتماء	تنوع التصميم والتصدير	Mockups واقعية وآمنة	مصممو UI/UX وصناع المحتوى
هل البيانات قابلة للترخيص وإعادة الإنتاج؟	الخصوصية والتنوع المنهجي	بيانات اختبار اصطناعية	المطورون/فرق OCR

المشكلات، الأسئلة ورحلة الشراء

- المشكلة: لا يوجد POS أو فاتورة مدفوعة تحتاج Receipt، أو يلزم نموذج مرئي/اختبار لا يستخدم بيانات حقيقية.
- قبل الشراء: هل الأداة مجانية فعليًا؟ هل تحتاج حسابًا؟ أي صيغ؟ هل يوجد Watermark؟ هل البيانات تبقى محليًا؟ هل يمكن التعديل؟ ما حدود الاستخدام القانوني؟
- الرحلة: إدراك الحاجة → البحث عن نوع Receipt محدد → مقارنة Free/No sign-up/Formats/Privacy → تجربة Builder → معاينة → حساب/تنزيل → Upgrade عند الحاجة المتكررة.
- الموسمية: Tax season، نهاية الشهر/السنة، موسم السفر، عودة الدراسة، Holiday markets/craft fairs. لا يُفترض حجم طلب دون أداة كلمات.

- receipt maker, receipt generator, payment receipt, itemized receipt, custom logo, no watermark, مصطلحات العميل: .PDF export, receipt template, AI receipt generator
- طبيعة المنافسة: وطنية/عالمية رقمية؛ لا تعتمد على قرب جغرافي أو Local Pack

3. استخراج أقوى 5 منافسين

#	المنافس	الرابط	النوع	التشابه	سبب اعتباره منافسًا
1	SimpleReceiptMaker	https://simplereceiptmaker.com/	Direct, organic, commercial	High	Recurring in general and vertical receipt-generator searches; same individual/small-business audience and online builder intent.
2	Receipt Baker	https://receiptbaker.com/receipt-generator	Direct, organic, commercial/content	High	Appears for AI, general, gas and brand receipt queries; same creation task and audience.
3	MakeReceipt	https://makereceipt.com/	Direct, organic, commercial	High	Established receipt maker with category templates, multilingual coverage and recurring organic visibility.
4	ReceiptFaker	https://www.receiptfaker.com/	Direct, organic, commercial	High	Strong overlap in brand-template searches and 100+ brand receipt layouts.
5	ExpressExpense	https://expressexpense.com/	Direct, organic, commercial	Medium-High	Established online receipt-maker result with currencies, templates and thermal-print workflow.

ملفات المنافسين

SimpleReceiptMaker (1)

الكلمات/الصفحات المشتركة: — free receipt maker; restaurant, rent and industry receipts; no login/no watermark — .Homepage and deep vertical generator pages

القوة: Content: Long structured 'SEO: Deep landing pages, clear query alignment, broad template coverage
AEO/GEO: Direct answers, descriptive headings, privacy/value 'explanations and multiple templates per vertical
.claims that are easy to extract

الضعف: Match: ما نتعلمه: Emerging brand; verbose pages; authority and claim substantiation require verification
Makecepeit's broader: كيف تتفوق: zero-friction intent and give each priority vertical a complete decision page
.brand library, export formats, saved history and stronger responsible-use framework

Receipt Baker (2)

الكلمات/الصفحات المشتركة: Walmart/Amazon/Starbucks receipt generator; manual editor; gas receipts; examples — Generator, gas page and brand examples

القوة: Field explanations, examples, 'SEO: Strong intent-specific URLs and dense topical landing pages 'AEO/GEO: Best structured explanatory content among sampled direct rivals 'comparisons and use cases

الضعف: PNG-heavy proposition; limited evidence for several claims; less transparent account/history story ما نتعلمه: Combine tool experience with unique field-level education on every generator page: export formats, transparent plan comparison, first-party testing and clearer lawful-use safeguards

MakeReceipt (3)

الكلمات/الصفحات المشتركة: receipt templates; restaurant/tip receipts; global languages — Homepage and receipt-template category/detail pages

القوة: Many template- 'SEO: Domain longevity, multilingual footprint and broad programmatic coverage 'AEO/GEO: Brand familiarity and multilingual entity signals 'specific pages

الضعف: International: ما نتعلمه: Dated UI, thin/generic pages, membership friction and external clutter Modern UX, privacy, richer vertical pages, clearer pricing: كيف تتفوق: architecture and durable category coverage and better mobile conversion

ReceiptFaker (4)

الكلمات/الصفحات المشتركة: brand receipts; Walmart and Starbucks templates; realistic receipts — Homepage and individual brand-template pages

القوة: 'Content: Simple how-to and FAQ patterns 'SEO: Exact-match long-tail coverage and large template inventory 'AEO/GEO: Question-led copy and strong query wording

الضعف: Brand name and framing create trust/safety risk; content is repetitive and entity signals are weak ما نتعلمه: Responsible-use positioning, Prioritize brand landing pages with demonstrable demand: كيف تتفوق: company transparency, deeper content and superior product capability

ExpressExpense (5)

الكلمات/الصفحات المشتركة: make receipt online; tip receipts; thermal receipt app — Homepage, style-specific maker pages and app pages

القوة: Template/style coverage and 'SEO: Longevity, broad global query coverage and recognizable brand 'AEO/GEO: Established brand mentions and clear task alignment 'testimonials

الضعف: Older design, thin programmatic copy, ads/external distractions and fraud-adjacent messaging: ما نتعلمه: Cleaner UX, stronger evidence, safer language, كيف تتفوق: Support print/thermal and global formatting use cases richer pages and transparent privacy

الحكم المقارن

- الأخطر: SimpleReceiptMaker في قيمة no-login/no-watermark وصفحات عميقة، ومعه Receipt Baker في AI والمحتوى القابل للاستخراج.
- الأسهل في التجاوز: ExpressExpense ثم ReceiptFaker نوعيًا، بسبب UX/محتوى أقدم أو ثقة/سلامة أضعف؛ يحتاج التحقق بأداة ترتيب وروابط.

- الأفضل في المحتوى وAEO/GEO ضمن العينة: Receipt Baker؛ الأفضل تقنيًا/تجربة حديثة: SimpleReceiptMaker وReceipt Baker نوعيًا.
- الأكثر قابلية للظهور في الأسئلة المباشرة: Receipt Baker بسبب field-level explanations، وليس بسبب Schema سحري.

منهجية الاختيار والاستبعادات

تم فحص مجموعات بحث حية بالإنجليزية تشمل: free receipt maker online, custom receipt generator, realistic receipt maker, AI receipt generator, restaurant/gas/rent/hotel/Walmart verticals, receipt maker, AI receipt generator. تم ترجيح التكرار عبر أكثر من نية وتشابه الأداة والجمهور والسوق.

استُبعدت Canva وTemplate.net وpdfFiller وPinterest وYouTube لأنها منصات/أدلة عامة أو UGC، واستُبعدت Invoice Simple وZoho كمنافسين عضويين على بعض النتائج لكنهم أوسع في invoices/doc automation ولا يطبقون نموذج brand/template receipt maker مباشرة.

4. تحليل فجوة المنافسين

الفجوة/الإجراء	المنافسون	Makecepeit	البعد
Retain hubs; reduce weak-page proliferation and establish vertical pillars	SimpleReceiptMaker and Receipt Baker provide fewer but deeper vertical routes; MakeReceipt/ReceiptFaker have broad inventories	Strong hubs: create/templates/brands/examples/help/blog; many programmatic branches	Site structure
Inventory is an advantage only if high-value detail pages become unique and substantive	Broad parity or advantage in raw inventory	43 general templates, 348+ brand layouts, ~25 example pages	Service/product pages
Expand the 20 money pages with fields, examples, comparisons, FAQs and lawful-use guidance	SimpleReceiptMaker/Receipt Baker are materially deeper on key verticals	Most sampled template pages ~200-370 visible words	Landing-page depth
State the exact entitlement above the fold; test a frictionless first export	SimpleReceiptMaker owns no-login/no-watermark proposition	Strong generator terms but free/no-sign-up promise conflicts with download login	Search-intent match
Validate 3 widths and instrument the full builder-to-download funnel	Rivals vary; newer entrants are streamlined	Modern responsive interface observed; real-user data unavailable	Mobile/UX
Add verifiable reviews, case studies, author credentials, methods and credible citations	Receipt Baker has explanatory authority; ExpressExpense has testimonials	About, Privacy, Terms and founder exist; featured badges are weak/duplicated	Trust
Use visible concise answers; do not expect Google FAQ rich results after 2026 removal	Rivals provide longer, extractable answers	Question headings and FAQ schema are common	FAQs/AEO
Correct visible-data alignment and enrich Offer only where pricing is accurate	Comparable; no special AI schema advantage exists	Organization, WebSite, WebApplication, FAQ, Breadcrumb, BlogPosting, ItemList	Schema
Use field/use-case anchors and parent/sibling links; add commercial blocks in informational pages	Deep rival pages cross-link closely related verticals	Hubs link down; representative article repeats /create links and has limited contextual breadth	Internal linking
Build entity corroboration, methods, original benchmarks, cited expert	Established rivals have more web history; Receipt Baker has source-	Organization schema and founder; only X in sameAs; little original data	Entity/GEO

البعد	Makecepeit	المنافسون	الفجوة/الإجراء
		friendly page structure	content and relevant third-party mentions
Conversion	Clear builder CTA; sign-in happens at download; pricing copy conflicts	SimpleReceiptMaker reduces friction; others show stronger social proof	Resolve promise/flow mismatch, synchronize pricing/legal copy and test checkout messaging
Content depth	Broad inventory but sampled money pages are short and representative article has limited sourcing	SimpleReceiptMaker and Receipt Baker explain fields, scenarios and comparisons in more depth	Prioritize depth on 20 validated pages before adding more URLs
Topic coverage	Strong brand/template breadth; weaker identifiers, payments, corrections, privacy, accessibility and OCR testing	Receipt Baker covers examples/fields; large publishers win broader education	Build the ten clusters in this audit and consolidate overlapping legacy posts
Trust elements	About, Privacy and Terms exist; visible badges are mainly tool/launch directories	Some rivals show testimonials or clearer no-login/privacy claims	Use verified proof, plan clarity, method pages and responsible-use controls
Case studies	No permissioned case-study library verified	No sampled direct rival dominates this area	Create two real case studies to form a defensible advantage
Reviews	No verifiable customer-review module was confirmed in the sampled conversion pages	ExpressExpense displays testimonials; reliability was not independently verified	Collect and display genuine attributable reviews only
Authors and experts	Founder appears; representative article has an author but limited credentials/reviewer corroboration	Direct rivals vary; authoritative publishers usually show stronger expert context	Create ProfilePage/Person pages, reviewers and editorial standards with genuine evidence
Update transparency	Publication and modified dates exist on articles; very rapid cadence creates quality questions	Receipt Baker/SimpleReceiptMaker emphasize evergreen deep pages	Use material-change dates, changelog and quarterly validation rather than cosmetic refreshes
Local SEO	Not applicable to an online national/global web app	Also not a meaningful differentiator for direct online tools	Do not create GBP or city doorway pages
Original AI-citable evidence	Little first-party research, testing data or benchmark methodology was found	No direct competitor has an unbeatable evidence moat	Publish synthetic OCR, receipt-field or privacy research with reproducible methods

الفجوات المستخرجة

- Content Gap: receipt identifiers, card/EMV fields, corrections/refunds, digital-payment receipts, privacy/accessibility, OCR test data
- Keyword Gap: 60 فرصة جديدة أدناه؛ كلها خارج قائمة العناوين المقدمة، ولا تعتمد على إعادة ترتيب اللفظ.
- Service/Product Gap: photography, food truck, pet grooming, personal training, craft fair/farmers market وميزات split payment/multiple tax/QR بعد تحقق المنتج.
- Trust Gap: مراجعات حقيقية، دراسات حالة، author/reviewer credentials، سياسة تحرير ومراجعة، مصادر قانونية/ضريبية رسمية.
- Authority Gap: لا توجد أرقام روابط موثقة؛ الإشارات المرئية تميل إلى launch/tool directories. المطلوب أصول بحثية وشراكات تخصصية.
- Conversion Gap: late signup disclosure, pricing inconsistency، ضعف الإثبات، وعدم وجود funnel evidence.

- AEO Gap: تعريفات وجداول وإجابات مباشرة؛ FAQ markup وحده لا يفيد Google rich results بعد إزالتها في 2026.
- GEO Gap: original data، external corroboration، authors/entities/sameAs، وسياسة زحف OAI-SearchBot غير متحققة.
- أسرع تفوق: إصلاح الوعد والسعر، ثم تعميق خمس صفحات مال، ثم pillar للحقول والمعرفات، ثم أصل بحثي أصلي.

5. استخراج 30 كلمة Long-Tail Commercial

جميع الكلمات التالية جديدة مقارنة بالقائمة التي قدمها المستخدم. الصفحة الحالية تشير إلى Hub فقط عندما لم يُتحقق من URL تفصيلي مناسب. المصفوفة الكاملة التي تتضمن جميع الحقول المطلوبة—العنوان، H1، CTA، الجمهور، الصفحة، الإجراء، الأولوية، التحويل والمنافسة—موجودة في ورقة Commercial KW داخل ملف Excel.

#	الكلمة	النية	الأولوية/المنافسة	الصفحة/الإجراء
1	free photography receipt generator online	Transactional — create a client payment receipt	High / Medium	Create as expansion opportunity
2	free veterinary receipt generator PDF	Transactional — generate and export a vet receipt	High / Medium	Improve existing template page after URL validation
3	food truck receipt generator with tax and tip	Transactional — create a food-truck sale receipt	High / Low-Medium	Create as expansion opportunity
4	florist receipt generator with custom logo	Transactional — make a branded florist receipt	Medium / Low-Medium	Improve existing template listing into a dedicated page
5	gym membership receipt generator PDF	Transactional — issue membership payment proof	Medium / Low-Medium	Improve existing template listing into a dedicated page
6	dry cleaning receipt generator online	Transactional — create a garment-service receipt	Medium / Low	Improve existing template listing into a dedicated page
7	towing service receipt generator	Transactional — document towing service payment	Medium / Low-Medium	Improve existing template listing into a dedicated page
8	pet grooming receipt generator PDF	Transactional — create pet-care payment receipt	High / Low	Create as expansion opportunity
9	liquor store receipt generator with sales tax	Transactional — create an itemized retail receipt	Medium / Low-Medium	Improve existing template listing into a dedicated page
10	electronics store receipt generator with SKU	Transactional — build an electronics retail receipt	Medium / Medium	Improve existing template listing into a dedicated page
11	clothing store receipt generator with discount	Transactional — make a retail receipt with promotion	Medium / Medium	Improve existing template listing into a dedicated page
12	hardware store receipt generator with itemized materials	Transactional — create itemized materials receipt	Medium / Low-Medium	Improve existing template listing into a dedicated page
13	pharmacy receipt generator with itemized products	Transactional — create an itemized pharmacy-style receipt	Medium / Medium	Improve page with healthcare/privacy safeguards
14	dental payment receipt generator	Transactional — document dental payment	Medium / Low-Medium	Improve page with HIPAA/privacy-safe examples

#	الكلمة	النية	الأولية/المنافسة	الصفحة/الإجراء
15	spa service receipt generator with gratuity	Transactional — make service receipt with tip	Medium / Low-Medium	Improve existing template listing into a dedicated page
16	coffee shop receipt generator with modifiers	Transactional — create café order receipt	High / Medium-High	Improve existing template listing into a dedicated page
17	fast food receipt generator with order number	Transactional — create counter or drive-through receipt	High / Medium-High	Improve existing template listing into a dedicated page
18	pizza receipt generator with delivery fee	Transactional — create delivery or pickup receipt	Medium / Low-Medium	Improve existing template listing into a dedicated page
19	car rental receipt generator with mileage and fees	Transactional — document vehicle rental charges	Medium / Medium	Improve page with pickup/return and fee fields
20	airline ticket receipt generator with baggage fees	Transactional — create a travel-payment record template	Low-Medium / Medium	Improve with non-ticket/non-proof disclaimer
21	paid invoice receipt generator for freelancers	Transactional — convert paid work into receipt	High / Medium	Improve builder with dedicated use-case section
22	proof of purchase receipt generator PDF	Transactional — create a purchase-record template	High / Medium-High	Improve with lawful-use and evidence limitations
23	sales receipt maker with split payment	Transactional — create one receipt for two tenders	High / Medium	Improve builder page; avoid duplicate landing until demand is verified
24	receipt maker with QR code and barcode	Commercial investigation — find feature-capable tool	Medium / Medium	Validate capability, then improve or create
25	receipt generator with multiple tax lines	Transactional — create receipt with complex tax	Medium / Low-Medium	Validate capability; improve builder page or product roadmap
26	AI receipt generator from text description	Commercial investigation / transactional — use AI	High / High	Create or expand an AI feature page with real examples
27	receipt maker with custom logo no watermark	Commercial investigation — compare restrictions	High / High	Improve with exact free/pro entitlement; do not overpromise
28	receipt generator for craft fair vendors	Transactional — issue booth-sale receipts	Medium / Low	Create as expansion opportunity
29	receipt maker for farmers market sellers	Transactional — create market-stall receipt	Medium / Low	Create as expansion opportunity
30	receipt generator for personal trainers	Transactional — issue session/package receipt	High / Low-Medium	Create as expansion opportunity

ملاحظة إلزامية للحجم والصعوبة

لكل الكلمات الثلاثين: تقدير نوعي يحتاج إلى التحقق بأداة كلمات مفتاحية (Ahrefs/Semrush/Keyword Planner). لم

تُختَر أرقام حجم بحث أو Keyword Difficulty.

6. استخراج 30 كلمة Long-Tail Informational

ضُممت المجموعة لتغطية TOFU/MOFU وأسئلة قابلة لـ Featured Snippets و PAA و AI answers، مع زوايا أصلية وليست مجرد عناوين تعريفية عامة سبق استخدامها.

#	الكلمة	المرحلة	FS/AEO/AI	الإجراء
1	what is a transaction ID on a receipt and where is it found	TOFU	High/High/High	Create
2	receipt number vs order number vs authorization code	MOFU	High/High/High	Create
3	what does batch number mean on a card receipt	TOFU	High/High/Medium-High	Create or merge into identifiers guide
4	what do AID TVR and TSI mean on an EMV receipt	TOFU	High/High/High	Create or merge into EMV codes guide
5	what does contactless mean on a receipt	TOFU	High/High/Medium	Create or merge
6	what is a receipt subtotal and how is it calculated	TOFU	High/High/High	Create
7	why are some items taxed differently on the same receipt	TOFU	Medium-High/High/High	Create with tax-professional review
8	how should discounts and coupons appear on an itemized receipt	MOFU	High/High/High	Create
9	service charge vs gratuity on a receipt	MOFU	High/High/High	Create
10	how do split payments appear on a receipt	MOFU	High/High/High	Create
11	how to correct a receipt after it has been issued	MOFU	High/High/High	Create
12	what is a refund receipt and what should it include	MOFU	High/High/High	Create
13	credit receipt vs refund receipt	MOFU	High/High/High	Create or merge into refund guide
14	can you edit a receipt after payment	MOFU	High/High/High	Create or merge with correction guide
15	what is a tax exempt receipt and what should it show	MOFU	High/High/High	Create with tax-professional review

#	الكلمة	المرحلة	FS/AEO/AI	الإجراء
16	should a receipt include an EIN or sales tax ID	MOFU	High/High/High	Create with legal/tax review
17	what personal information should never appear on a receipt	TOFU	High/High/High	Create
18	how to protect customer data on digital receipts	MOFU	Medium-High/High/High	Create guide and expand policy cross-links
19	how to convert an invoice to a receipt after payment	MOFU	High/High/High	Create
20	how to issue a receipt for Zelle Venmo or ACH payment	MOFU	High/High/High	Create
21	what should a PayPal or Stripe payment receipt include	MOFU	High/High/High	Create
22	how to write a receipt for a subscription renewal	MOFU	High/High/High	Create
23	what should a receipt for digital products include	MOFU	High/High/High	Create
24	what is a POS receipt and which fields come from the POS	TOFU	High/High/High	Create
25	what should a receipt footer include	MOFU	High/High/High	Create
26	what do cashier ID and register number mean on a receipt	TOFU	High/High/Medium-High	Create or merge into identifiers guide
27	how to reconcile a receipt total with a credit card statement	MOFU	Medium-High/High/High	Create
28	how to create synthetic receipt data for OCR testing	MOFU	Medium/High/High	Create plus downloadable dataset/schema
29	how to test a receipt scanner without real customer data	MOFU	Medium/High/High	Create
30	how to make digital receipts accessible to screen reader users	MOFU	Medium-High/High/High	Create and apply product-wide

ملاحظة إلزامية للحجم

لكل الكلمات المعلوماتية الثلاثين: تقدير نوعي يحتاج إلى التحقق بأداة كلمات مفتاحية. التقييم الحالي مبني على نية السؤال، ملائمة المنتج، وفجوة SERP نوعية.

7. تجميع الكلمات في Clusters

Cluster	الكلمة الرئيسية	Pillar	الترتيب	Cannibalization	المنع
Core maker & AI	AI receipt generator from text description	/create or /features/ai-receipt-generator	1	High if separate feature pages repeat generic maker intent	Use one builder pillar; create a feature page only when independent demand and product capability are verified
Food & hospitality	food truck receipt generator with tax and tip	/templates/restaurant	2	Medium	Restaurant owns generic intent; children target unique field/use-case combinations
Retail verticals	electronics store receipt generator with SKU	/templates/retail	3	Medium	Create a retail pillar and canonicalize/merge thin near-duplicates
Professional & personal services	free photography receipt generator online	/templates/services	4	Low-Medium	Differentiate by service-specific fields and workflow, not adjective swaps
Travel & transport	car rental receipt generator with mileage and fees	/templates/travel	7	Medium	Avoid brand/airline doorway variants unless real unique content and demand exist
Sellers & events	receipt generator for craft fair vendors	/receipt-templates-for-sellers	6	Low	Group low-volume seller scenarios until data justifies separate pages
Identifiers & card fields	receipt number vs order number vs authorization code	/guides/receipt-identifiers	5	High	One strong comparison/field glossary; merge single-definition pages unless impressions prove independence
Totals, tax & payment display	what is a receipt subtotal and how is it calculated	/guides/receipt-totals-tax-payments	5	Medium-High	Separate only legal/tax intents; use canonical anchors for simple definitions
Corrections, refunds & audit trail	how to correct a receipt after it has been issued	/guides/receipt-corrections-refunds	5	High	Merge edit/correct/reissue into one guide; refund can remain separate
Privacy, accessibility & test data	what personal information should never appear on a receipt	/guides/receipt-privacy-accessibility	4	Low	Maintain distinct audiences, but share one evidence hub and terminology

قاعدة المنع: لا تُنشأ صفحات مستقلة لـ transaction ID/batch/cashier/register إذا كان بإمكان دليل Receipt Identifiers واحد استهدافها بوضوح. ولا تُفصل ميزات QR/multiple tax/split payment عن create/ إلا إذا أكدت بيانات الطلب ونية SERP اختلافًا حقيقيًا.

8. خريطة محتوى Topical Authority

الموضوع	الهدف	النية	الصفحة	الأولوية	يدعم
Receipt builder	Create a receipt with accurate fields and exports	Transactional	Product pillar /create	P0	SEO+AEO+CRO

أصول تثبت الخبرة وتبني الروابط

- Receipt Field Dictionary مع samples redacted ومراجع رسمية.
- Synthetic OCR Receipt Dataset/Benchmark بمنهجية وترخيص وحدود واضحة.
- Receipt Privacy Benchmark يقارن سياسات الأدوات بطريقة قابلة للتكرار.
- US Receipt Requirements Map بعد مراجعة محام CPA ومصادر حكومية، وليس نصيحة قانونية.
- Case studies لعملاء حقيقيين: freelancer, food truck, photographer, UX/OCR team.
- Calculators/validators: subtotal-tax-discount order, split-payment checker, receipt field completeness checker

9. مراجعة Technical SEO

النطاق هنا sample-based: الصفحة الرئيسية، Builder، hubs، صفحات، blog/article، template/brand، pricing/about/terms/privacy، pagination و404. لا أدعي Crawl كاملاً.

نقاط مؤكدة جيدة

- HTTPS وتوحيد www/non-www وhttp/https إلى <https://www.makecepeit.com> تأكداً في العينة.
- Canonical ذاتي، Title/Meta/H1 منطقي واحد في الصفحات المختبرة، ومحتوى HTML قابل للرؤية قبل التفاعل.
- Pagination في examples/page/2/ لها Title/Meta/Canonical فريد؛ 404 مخصص ومفيد للمستخدم.
- JSON-LD موجود لـ Organization/WebSite/WebApplication/Breadcrumb/BlogPosting/ItemList/FAQ حسب الصفحة.
- Open Graph ظهر على الصفحة الرئيسية، ولم تلاحظ عناصر Mixed Content في العينة؛ يلزم Crawl/DevTools sitewide للتأكيد.
- المقال الممثل احتوى صورتين مع Alt وصفي؛ صور Featured On الخارجية بدت مكررة وبعضها بلا أبعاد طبيعية، لذلك لا يُعمم حكم الصور على الموقع كله.
- لا hreflang، وهو صحيح حالياً لنسخة إنجليزية واحدة؛ لا تُضف إشارات وهمية.

المشكلة	الدليل	الخطورة	الحل	التحقق
React hydration mismatch (#418) observed in browser console	https://www.makecepeit.com/	Critical	Find non-deterministic server/client values (dates, random receipt numbers, locale); make rendering deterministic; add CI console test	No hydration errors in clean sessions at 360/768/1440 px; builder actions work
robots.txt could not be verified in this audit environment	https://www.makecepeit.com/robots.txt	High	Fetch from external crawler/GSC, validate syntax, allow intended search crawlers; make an explicit OAI-SearchBot decision	200 response, expected directives, robots tester and external fetch pass

المشكلة	الدليل	الخطورة	الحل	التحقق
XML sitemap could not be verified in this audit environment	https://www.makecepeit.com/sitemap.xml	High	Create or verify segmented sitemap index; include only 200/indexable/canonical URLs with truthful lastmod; submit in GSC	All sitemap URLs return 200, self-canonical and indexable; GSC reads each sitemap
Pricing and Terms conflict	https://www.makecepeit.com/pricing ; https://www.makecepeit.com/terms	Critical	Define one source of truth for Free/Weekly/Monthly/Annual, watermark entitlement, renewal/refund/cancellation; update all pages	Automated copy check and manual legal review show identical plan terms
Annual savings messages conflict ('Save ~60%' vs '2 months free')	https://www.makecepeit.com/pricing	High	Use one arithmetically correct comparison basis and disclose it next to price	Displayed calculation matches actual billing amounts
Download account requirement appears after initial 'free' promise	https://www.makecepeit.com/ ; https://www.makecepeit.com/create	High	Add precise microcopy near primary CTA and test one frictionless sample export or clearer account-value exchange	Funnel events show disclosure; user test can predict requirement before download
Priority template and brand pages are thin	https://www.makecepeit.com/templates/hotel ; https://www.makecepeit.com/brands/walmart	High	Expand only validated money pages with unique fields, examples, scenarios, comparisons, FAQs, sources and internal links	Each priority page passes uniqueness review and covers its intent map
Rapid, large blog publication footprint needs quality audit	https://www.makecepeit.com/blog	High	Export all URLs/queries, classify keep/update/merge/noindex/remove, stop cadence-led publishing	Every URL has an owner query, intent, quality decision and internal-link role
External 'Featured On' images duplicated and some reported zero natural dimensions	https://www.makecepeit.com/	Medium	Use permissioned, optimized local assets with width/height; remove duplicates; label directories accurately	No duplicate DOM badges; images have dimensions and load; no layout shift
404 has duplicate robots meta directives	https://www.makecepeit.com/seo-audit-404-check-20260811	Low	Output one noindex directive; keep helpful navigation; ensure true 404 status	Single robots meta and HTTP 404 in external test
FAQ schema no longer yields Google FAQ rich results	https://www.makecepeit.com/	Medium	Keep only when visible and useful; prioritize answer structure and WebApplication/Article/Breadcrumb correctness	Schema validates and reporting does not count FAQ rich results as KPI
Core Web Vitals not measurable from current evidence	https://www.makecepeit.com	High	Collect GSC/CrUX and RUM by template; optimize to LCP≤2.5s, INP≤200ms, CLS≤0.1	GSC CWV and RUM show Good at 75th percentile

المشكلة	الدليل	الخطورة	الحل	التحقق
	m/		at p75	
Visual breadcrumbs are inconsistent with Breadcrumb schema	https://www.makecepeit.com/m/templates ; https://www.makecepeit.com/blog/online-receipt-maker	Medium	Render a visible breadcrumb matching JSON-LD on indexable child pages	Visible and structured breadcrumb paths are identical
Brand-page wording includes 'replacing lost receipts'	https://www.makecepeit.com/brands/walmart	Critical	Replace with documented lawful use; show non-affiliation and 'not proof of purchase' near CTA/output; legal review	Approved language appears on page and generated output; misuse reporting path exists
No hreflang detected	https://www.makecepeit.com/m/	Informational	Do not add hreflang until real localized equivalents exist	N/A; future locales have reciprocal valid tags

Core Web Vitals غير متاحة من الأدلة الحالية. الهدف الرسمي: $LCP \leq 2.5s$ و $INP \leq 200ms$ و $CLS \leq 0.1$ عند percentile 75، ويُقاس عبر CrUX/GSC/RUM، لا عبر تخمين Lighthouse منفرد.

10. تحليل On-Page SEO

الصفحة	الرابط	الاستنتاج	الإجراء
Homepage	https://www.makecepeit.com/	Strong metadata and CTA; account requirement is disclosed later than the opening promise.	Improve
Builder	https://www.makecepeit.com/create	Feature-rich editor; 492 visible words; login required to download.	Improve
Templates hub	https://www.makecepeit.com/templates	43 visible cards; good hub, but detail pages are usually thin.	Improve
Brands hub	https://www.makecepeit.com/brands	Large differentiating inventory; must reinforce legitimate-use context.	Improve
Walmart page	https://www.makecepeit.com/brands/walmart	Representative brand page; 368 visible words and replacement framing creates trust/legal risk.	Rewrite
Hotel template	https://www.makecepeit.com/	About 205 visible words and one FAQ; insufficient depth for high-intent query.	Expand

الصفحة	الرابط	الاستنتاج	الإجراء
	templates/hotel		
Grocery template	https://www.makecepeit.com/templates/grocery-store	Clean metadata, thin vertical copy.	Expand
Restaurant template	https://www.makecepeit.com/templates/restaurant	High-intent page; needs tax/tip/discount fields, examples and use cases.	Expand
Gas template	https://www.makecepeit.com/templates/gas-station	High-intent page; needs gallons/grade/unit-price math and compliance context.	Expand
Rent template	https://www.makecepeit.com/templates/rent-receipt	Needs landlord/tenant fields, payment method, period and state-law disclaimer.	Expand
Pricing	https://www.makecepeit.com/pricing	Strong simplicity; annual savings copy conflicts internally and Terms omit weekly plan.	Correct
Blog hub	https://www.makecepeit.com/blog	Large, rapidly published inventory; requires quality and cannibalization audit.	Audit
Representative article	https://www.makecepeit.com/blog/online-receipt-maker	Author/date/schema present; 738 words, limited external evidence and repeated builder links.	Expand
About	https://www.makecepeit.com/about	Founder and experience appear, but credentials, profiles, methodology and company identifiers are limited.	Expand
Terms	https://www.makecepeit.com/terms	Responsible-use language exists; pricing/product description is not synchronized.	Correct

ما ظهر عبر العينة

- Intent جيد في create/hubs، لكن كلمة Free لا تُشرح بدقة فوق الطية لأن التنزيل يتطلب حسابًا وحدودًا.
- Template detail pages تحتاج مقدمة فائدة أقوى، حقولًا خاصة بالنوع، أمثلة حسابية، حالات استخدام، اعتراضات، مصادر وروابط داخلية.
- المقال الممثل لديه author/date/FAQ/Breadcrumb لكنه قصير نسبيًا ويكرر create/ ولا يستشهد بمصادر خارجية موثوقة.

- صفحة About هوية وخبرة ومراجعين وروابط ملفات حقيقية؛ لا يوجد دليل على صفحات مدن، وهو قرار صحيح.
- صفحة تواصل مستقلة لم تُتحقق؛ البريد موجود. إن لم توجد، أنشئ Contact/Support بمعلومات الشركة ومسار إساءة الاستخدام.

11. تحليل AEO

الجاهزية متوسطة: توجد أسئلة و FAQ و Headings، لكن الأولوية يجب أن تنتقل إلى إجابة مباشرة 40-70 كلمة، تعريفات واضحة، قوائم خطوات، جداول مقارنة، ومصادر. Google أزال FAQ rich results في 2026، لذا لا يُستخدم FAQPage بوصفه هدفًا شكليًا للظهور.

أهم 20 سؤالًا وإجابة نموذجية

السؤال	الإجابة المختصرة	الصفحة	Schema
Is Makecepeit free?	You can build and preview a receipt free. A free account is required to download; the first three downloads are described as watermark-free, after which free downloads carry a watermark. Verify this entitlement against the live product before publishing.	/pricing and /create	WebApplication + visible FAQPage semantics; no Google FAQ rich-result expectation
Do I need an account to use Makecepeit?	No account is needed to start building or previewing a receipt. An account is required at the download step so receipts can be saved and download limits can be managed.	/create	WebApplication
Which receipt formats can I download?	The site states that receipts can be exported as PDF, PNG and JPG, with an A4 option. The chosen format should be shown before the download action.	/create	WebApplication
Is receipt data private?	Makecepeit states that receipt data is processed in the browser unless the user chooses to save it. Saved data and AI features can involve named service providers, so the Privacy policy should remain the source of truth.	/privacy	WebPage
Can Makecepeit create brand-inspired receipts?	The site lists more than 300 brand-inspired layouts. They are independent templates, not merchant-issued proof of purchase, and should be used only for lawful records, mockups or authorized purposes.	/brands	CollectionPage + ItemList + BreadcrumbList
Is it legal to use an online receipt maker?	Creating a receipt for a genuine transaction, record or authorized mockup can be lawful. Using a generated receipt to misrepresent a purchase, claim reimbursement or deceive another party can be illegal; users should follow applicable law and policy.	/terms and a dedicated responsible-use page	WebPage / Article
Will my receipt have a watermark?	The current pricing page says the first	/pricing	WebPage + Offer only when exact

السؤال	الإجابة المختصرة	الصفحة	Schema
	three free downloads are watermark-free and later free downloads carry a watermark; paid plans remove it. Because pricing copy is inconsistent elsewhere, confirm the live rule before publication.		
How does the AI receipt generator work?	The AI feature turns a text description into structured receipt fields that the user can review and edit before export. The page should explain what data is sent to the AI provider and avoid entering sensitive information.	/features/ai-receipt-generator	WebApplication / WebPage
Can I add tax, discount and tip?	The builder supports custom tax, discount and tip fields. A receipt should show each amount clearly and calculate the total consistently with the applicable business rules.	/create	WebApplication
Can I add my own logo?	Makecepeit advertises custom-logo support. Users should upload only logos they own or are authorized to use and should not imply affiliation with another business.	/create	WebApplication
Can I add a QR code or barcode?	Add a public answer only after confirming the live builder capability. If supported, explain what the code contains and never encode sensitive payment or personal data.	/create	WebApplication
Which currencies are supported?	The homepage states support for ten currencies. Publish the actual currency list in visible HTML and keep it synchronized with the builder.	/create	WebApplication
How should split payments appear on a receipt?	Show each payment method and amount separately, then confirm that their sum equals the final total. Do not print full card numbers or sensitive account details.	/guides/split-payments-on-receipts	Article + BreadcrumbList
What is the difference between a receipt maker and a receipt generator?	In practice, both terms describe software that turns transaction details into a formatted receipt. A useful tool should make the fields editable, calculate totals correctly and export a readable record.	/create	WebPage / WebApplication
What should a hotel receipt include?	A hotel receipt normally identifies the guest, property, stay dates, room charges, taxes, incidental fees, payment method and final balance. It should not be presented as a hotel-issued folio unless it came from the property.	/templates/hotel	WebPage + BreadcrumbList
What should a gas receipt include?	A gas receipt commonly shows station details, date and time, fuel grade, gallons, price per gallon, tax where applicable, total and masked payment method.	/templates/gas-station	WebPage + BreadcrumbList
What should a rent receipt include?	A rent receipt should identify the landlord or agent, tenant, property,	/templates/rent-receipt	WebPage + BreadcrumbList

السؤال	الإجابة المختصرة	الصفحة	Schema
	rental period, payment date, amount, payment method and any remaining balance. State rules can differ.		
Does Makecepeit work on mobile?	The builder is presented as a browser-based tool. Confirm editing and exporting on current iOS and Android browsers, then state the tested browser and version range.	/create	WebApplication
How do I cancel or request a refund?	The Pricing, checkout and Terms pages should give one consistent cancellation and refund process, including billing period, effective date and contact path. Do not publish a short answer until those terms are reconciled.	/pricing and /terms	WebPage
How long does it take to make a receipt?	The homepage promises about 60 seconds. Treat this as a product claim: publish the workflow steps and validate the claim with user testing before repeating it broadly.	/	WebApplication / WebPage

Featured Snippets أولوية

- Receipt number vs order number vs authorization code — جدول مقارنة.
- What is a receipt subtotal ؟ — تعريف + معادلة + مثال.
- Service charge vs gratuity — جدول فرق وتطبيق.
- How do split payments appear ؟ — خطوات ومثال رقمي.
- Tax-exempt receipt / EIN vs sales tax ID — جواب أمريكي موثق مع caveats.

12. تحليل GEO وظهور العلامة في محركات الذكاء الاصطناعي

لماذا قد لا تُذكر العلامة؟

- العلامة تظهر ككيان داخل Organization/WebApplication، لكن sameAs محدود وcorroboration الخارجي قليل.
- المحتوى واسع لكنه ليس غنيًا بأبحاث أصلية أو مصادر ومؤلفين/مراجعين يمكن لأنظمة AI الاعتماد عليهم.
- الصفحات الرقيقة والعبارات التسويقية أو المرتبطة باستبدال إيصالات قد تقلل الثقة والسلامة.
- robots.txt لم يُتحقق؛ لذلك لا يمكن تأكيد أهلية OAI-SearchBot أو عدم حظره على مستوى CDN/WAF.
- في عينة الاستعلامات العامة/AI-style لم يظهر Makecepeit ضمن النتائج التي أعادها البحث؛ هذا مؤشر نوعي لا قياس.

.Share of Voice

خطوة بناء Brand Entity

- توحيد الاسم والوصف القانوني/التجاري وURL/logo/founder/contact على Homepage/About/Schema/profiles.
- إنشاء /authors، /editorial-policy، /review-policy، /responsible-use، /methodology، /contact، /case-studies.
- إضافة Person/ProfilePage للمؤلفين الحقيقيين فقط، وتحديث sameAs بروابط مملوكة ومثبتة فقط.
- نشر original data، تواريخ نشر/تحديث صادقة، changelog، ومراجع أولية رسمية.
- كسب mentions في مواقع محاسبة/أعمال صغيرة/UX/OCR/Accessibility/وجمعيات وشركاء فعليين، لا حزم روابط.

محتوى قابل للاقتباس ومنصات مناسبة

- Research: receipt field/privacy/accessibility benchmark, synthetic OCR test suite, state requirements map
- منصات: accounting/bookkeeping publications, small-business associations, freelancer communities, UX/design systems, GitHub
- Digital PR: نتائج بحثية بمنهجية، خبراء ضيوف، tool comparisons بتجربة معلنة، وقوائم checklists قابلة للاقتباس.

Prompt Testing

- ?What are the best free receipt makers that let me preview before signing up
- ?Which online receipt maker exports PDF, PNG and JPG
- ?What is a privacy-first receipt generator that processes data in the browser
- ?Which AI receipt generator creates a receipt from a text description
- ?Which receipt generator has the largest brand-inspired template library
- ?Makecepeit vs Receipt Baker — which is better and why
- ?Makecepeit vs SimpleReceiptMaker — which has less download friction
- ?What is a reputable receipt generator for lawful records
- ?Which receipt generator is useful for synthetic OCR test data
- ?What is the cheapest receipt maker for occasional use

التاريخ	Prompt	المنصة	ظهور العلامة	المنافسون	المصادر	التغير

	Which receipt generator has the largest brand-inspired template library?	ChatGPT/Gemini/Perplexity				

Local SEO .13

غير مناسب حاليًا (N/A)

Makecepeit تطبيق ويب وطني/عالمي ولا يقدم خدمة محلية من مقر يزوره العملاء أو داخل Service Area. لذلك لا أوصي بـ Google Business Profile أو city pages أو LocalBusiness Schema أو Local Pack KPI. إنشاء صفحات مدن متشابهة سيكون خطر Doorway Pages. إذا ظهر لاحقًا مقر مؤهل حقيقي، تُراجع الأهلية و NAP والفئات والمراجعات بصورة مستقلة.

14. تحليل الروابط والسلطة

لا توجد أرقام موثقة لـ Referring Domains أو Authority Score لأن أداة روابط لم تكن متاحة. التقييم نوعي فقط.

- المؤكد المرئي: شارات Featured On مرتبطة أساسًا بأدلة إطلاق/أدوات مثل Fazier و Turbo0 و Findly.tools و Startup و Fame وغيرها؛ لا تُعامل تلقائيًا كتغطية تحريرية قوية.
- الفجوة: mentions ذات صلة فعلية بالمحاسبة، الأعمال الصغيرة، UX/OCR، accessibility، freelancing، retail operations، case study، الروابط الجذابة: benchmark أصلي، calculator/checker، templates، dataset، مرخصة، state map، موثق، ببيانات حقيقية.
- الشراكات: bookkeepers/CPAs، منصات freelancer، جمعيات حرفية/باعة، accessibility experts، developer communities.
- تجنب: bulk directories، guest posts غير ذات صلة، anchors تجارية متكررة، شراء روابط، أو ادعاء press coverage عبر شارة directory.

15. تحليل تجربة المستخدم والتحويل CRO

العرض الأساسي وCTA واضحان، لكن شروط التنزيل والثقة والسعر تحتاج أن تظهر قبل أن يستثمر المستخدم وقته في التحرير. القياس الحالي غير متاح، لذا الأثر نوعي.

#	التحسين	الأثر	الجهد	السبب
1	State 'free to build; account required to download' beside the first CTA	Very high	Low	Fixes expectation mismatch and improves qualified starts
2	Test one frictionless sample export or an explicit account-value exchange	Very high	Medium	Targets the largest likely drop between editing and download
3	Reconcile Free/Weekly/Monthly/Annual pricing, watermark, renewal, refund and cancellation copy	Very high	Low	Removes legal/trust friction at the decision point
4	Add an accurate Free vs Pro comparison in the builder and download modal	High	Low-Medium	Explains limits before the paywall and supports plan selection
5	Replace weak/duplicated directory badges with verifiable testimonials and permissioned case studies	High	Medium	Improves proof without implying editorial endorsement
6	Add privacy and lawful-use microcopy beside AI, logo upload and brand-template actions	High	Low	Reduces sensitive-data and misuse objections
7	Shorten signup with secure SSO or magic link and return users to the exact draft	High	Medium	Reduces interruption at peak intent
8	Use a mobile sticky CTA with exact entitlement and current draft status	Medium-High	Medium	Makes the next action persistent without hiding conditions
9	Add field-specific examples and	High	Medium	Converts search visitors who

#	التحسين	الأثر	الجهد	السبب
	objections to the five highest-intent templates			need assurance before opening the tool
10	Instrument create_start → first_edit → preview → download_click → signup → download_success → paywall → purchase	Very high	Medium	Turns CRO prioritization from opinion into measurable diagnosis

16. بنية الموقع والربط الداخلي

البنية المثالية

- Home → /create → /pricing — /
- templates/ → pillars: /restaurant, /retail, /services, /travel, /sellers/ → صفحات مميزة فقط.
- /brands/ → فئات علامات → صفحات مستوحاة من علامات مع non-affiliation/provenance واضح.
- guides/ → receipt anatomy, identifiers, totals/tax/payments, corrections/refunds, privacy/accessibility, digital/ payments
- /research/ أو /labs/ → OCR dataset, privacy benchmark, calculators/checkers/
- alternatives/ → comparisons/ ومقارنات مختبرة مع disclosure.
- /terms/, /privacy/, /contact/, /responsible-use/, /editorial-policy/, /authors/, /case-studies/.

Pillar	الداعم	التجاري	Anchor Text	مسار المستخدم
Receipt identifiers pillar	transaction ID / EMV / cashier ID guides	/create	receipt fields / receipt builder	تعريف → مثال → افصح Builder
Totals/tax pillar	subtotal, discounts, split payments	/create + restaurant/retail	calculate receipt totals / restaurant receipt	مشكلة حساب → قالب مناسب
Restaurant pillar	food truck, coffee, fast food, pizza	/templates/restaurant	restaurant receipt generator	مقارنة use case → تشغيل القالب
Services pillar	photography, vet, grooming, trainer	/create	service receipt template	اختيار القطاع → صفحة CTA vertical
Privacy/research pillar	OCR tests, accessibility	/privacy + /create	privacy-first receipt maker	دليل ثقة → تجربة المنتج

تحتاج روابط أكثر: صفحات المال الرقيقة، Pricing، About/Responsible Use، والأصول البحثية الجديدة. يجب ألا تتنافس create/ وHomepage ومقال online-receipt-maker على نفس عبارة generic receipt maker؛ يُعطى create/ intent الأداة، وHomepage intent العلامة/الفئة، والمقال intent التعليمي/المقارنة.

Schema Markup .17

نوع الصفحة	Schema	السبب	البيانات	أخطاء	الأولوية
Homepage	Organization, WebSite, WebApplication	Define brand, site and core software	Name, URL, logo, contact, founder, sameAs, application category, OS, offers	Do not add unverified ratings, awards or third-party profiles	P1
Builder	WebApplication, WebPage, BreadcrumbList if visible	Describe the actual interactive product	Features, supported formats/currencies, URL, offers linked to pricing	Do not promise capabilities not present in the live UI	P1
Pricing	WebPage + Offer(s) linked to WebApplication	Make machine-readable plans align with visible prices	Price, currency, billing period, eligibility, watermark/download limits	Do not publish conflicting or stale offers	P0
Template hub	CollectionPage, ItemList, BreadcrumbList	Represent visible template collection	List items with real URLs/names and matching visible order	Do not list hidden/non-indexable items	P1
Template detail	WebPage or Service, BreadcrumbList	Describe a real generator/use case	Name, description, provider, serviceType, areaServed only if relevant	Do not force Product when no individual product/price exists	P1
Brand hub	CollectionPage, ItemList, BreadcrumbList	Represent independent brand-inspired layout directory	Visible items and non-affiliation description	Do not use brand Organization entities as if affiliated	P0
Article/guide	Article or BlogPosting, Person, BreadcrumbList	Surface author, dates and editorial accountability	Headline, author URL, published/modified dates, image, publisher	Do not use future or cosmetic modified dates	P1
Author profile	Person, ProfilePage	Connect expertise and reviewed content	Name, role, bio, credentials, worksFor, genuine sameAs	Do not invent credentials or profiles	P1
About	AboutPage, Organization, Person	Clarify entity relationships	Legal/brand name, founder, contact, policies, genuine profiles	Avoid duplicate/conflicting Organization nodes	P1
Case study	Article, Organization, Person	Make first-party evidence extractable	Client permission, method, dates, outcomes and limitations	No fabricated clients or metrics	P2
FAQ section	FAQPage only when visible and valid	Semantic question-answer structure	Exact visible questions and answers	Google removed FAQ rich results in 2026; no markup-only FAQ or duplicated sitewide boilerplate	P3
Video page	VideoObject + Article/WebPage	Expose a real tutorial video	Thumbnail, upload date, duration, content URL/embed URL and transcript	Do not mark decorative or absent video	P2
Step guide	Article; HowTo only when a genuine visible sequential task applies	Represent instructions accurately	Complete steps, images and outcome	Do not expect HowTo markup alone to create visibility	P3

18. فرص إضافية خاصة بالمجال

الفرصة	التصنيف	القيمة	الأولوية	شرط التنفيذ
Synthetic receipt dataset + OCR benchmark	SEO, GEO, Digital PR	Developer audience and original citeable evidence	P1	Publish field schema, 500+ synthetic variations only after privacy/legal QA; include methodology and limitations
Receipt field dictionary	AEO, GEO, SEO	Own definitions not covered by current broad articles	P1	Annotated, source-backed glossary with one canonical URL per intent cluster
Restaurant/retail/service vertical pillars	SEO, Conversion	Close depth gap against SimpleReceiptMaker and Receipt Baker	P1	Use field calculators, examples and decision content—not boilerplate
Photography, food truck, pet grooming, personal trainer and farmers-market templates	SEO, Conversion	New commercial scenarios absent from the supplied title list	P1-P2	Validate demand in Ahrefs/Semrush before separate URLs
Receipt privacy benchmark	GEO, Branding, Digital PR	Creates an original source AI systems and journalists can cite	P1	Compare visible privacy, retention and export claims across tools with reproducible method
State sales-tax receipt requirements map	SEO, AEO, Digital PR	High-value US research asset	P2	Requires tax-attorney/CPA review and official state citations; avoid legal advice
Accessible receipt sample pack	GEO, Branding, Conversion	Differentiates product on an underserved need	P2	Provide tagged PDF/HTML examples and accessibility statement
Real customer case studies	Conversion, GEO, Branding	Addresses trust and proof gap	P1	Use named/permissioned workflows and no fabricated metrics
Video walkthroughs for top templates	AEO, SEO, Conversion	Clarifies builder workflow and supports video results	P2	Host transcripts and VideoObject only for actual videos
Plan comparison and alternatives testing lab	SEO, GEO, Conversion	Commercial investigation queries need evidence	P1	Publish repeatable criteria, test dates and self-interest disclosure
Accounting/bookkeeping partner content	Authority, Digital PR	Earn relevant mentions beyond launch directories	P2	Co-author receipt-policy checklists with verified practitioners
Receipt design template gallery for UX teams	SEO, Digital PR	New safe use case distinct from reimbursement/fraud framing	P2	Offer downloadable redacted UI components and design rationale
Seasonal seller kits	SEO, Conversion	Craft fairs, holiday markets and tax season have time-bound demand	P2	Update annually; one substantive seller hub rather than city doorway pages
Quality consolidation of rapid blog inventory	SEO, GEO	Reduce commodity/overlapping content and improve source trust	P0	Merge thin pages by intent using GSC evidence and redirect map
Brand safety and provenance	Branding, Conversion, GEO	Protects entity reputation and	P0	Visible non-affiliation,

الفرصة	التصنيف	القيمة	الأولوية	شرط التنفيذ
layer		legitimate-use positioning		generated-document labeling, misuse reporting and legal review

مخاطر تخصصية: محتوى الضرائب/الإعفاءات/إيصالات الإيجار والرعاية الصحية يحتاج مراجعة مختص؛ صفحات العلامات تحتاج مراجعة trademark/consumer deception؛ يجب منع استخدام المخرجات كإثبات شراء مزيف أو مطالبة مصروفات.

19. خطة تنفيذ لمدة 90 يومًا

التحقق	KPI	الأولوية	المخرجات	المسؤول	المهمة	الأسبوع
Crawl and analytics QA signed off	Baseline locked; 100% priority URLs classified	P0	GSC/GA4 exports; crawl; URL inventory; event spec	SEO + Analyst + Developer	Baseline, full crawl and measurement design	Week 1
Clean-session tests at 360/768/1440 px	No console hydration errors; CWV p75 tracked	P0	Deterministic rendering fix; device matrix; RUM dashboard	Developer	Fix hydration error; validate mobile and CWV	Week 2
Automated copy check + legal approval	Zero conflicting plan statements	P0	Single plan matrix; revised Pricing/Terms/modals	Product + Legal + CRO	Reconcile product/pricing/legal promises	Week 3
External fetch, robots test and sampled URL audit	GSC accepts sitemaps; only canonical indexable URLs included	P0-P1	Robots policy; segmented sitemap index; canonical/noindex rules	SEO + Developer	Verify robots/sitemaps and crawl architecture	Week 4
A/B or before/after cohort analysis	Qualified create starts and download-step completion trend upward	P1	Three revised pages; funnel events; trustworthy proof module	SEO + CRO + Writer + Designer	Rewrite Homepage, Builder and Pricing	Week 5
User test + schema validation	Priority template discovery and lawful-use comprehension	P0-P1	Vertical pillars; visible breadcrumbs; non-affiliation/provenance UI	SEO + Legal + UX	Rebuild templates/brands hubs and safety language	Week 6
Content QA and GSC URL inspection	Impressions/CTR/engagement tracked per page	P1	Five unique pages with fields, examples, FAQs, sources and CTA	SEO + Expert writer + Designer	Expand five current money pages	Week 7
URL inspection and live link audit	All pages indexed and internally linked	P1	Photography + food-truck pages; identifier + subtotal guides	SEO + Writer + Developer	Launch two new commercial pages and two guides	Week 8
Snippet-format review + event QA	Answer blocks eligible; commercial CTAs tracked	P1-P2	Pet grooming, personal trainer, farmers market; corrections, refund, split-payment guides	SEO + Writer	Launch three new commercial pages and three AEO guides	Week 9
Entity consistency checklist	Every guide has accountable author/reviewer and sources	P1	Author profiles; editorial/review policy; methods; company/contact facts	Editor + Founder + SEO	Build entity and E-E-A-T layer	Week 10
Source links, response log and referral	Relevant earned mentions and citations	P1	Receipt privacy or OCR benchmark; targeted	Research + PR + SEO	Publish original research asset and	Week 11

الأسبوع	المهمة	المسؤول	المخرجات	الأولوية	KPI	التحقق
	outreach		outreach list		(no numeric promise)	monitoring
Week 12	Internal-link, schema and content consolidation sprint	SEO + Developer + Editor	Anchor map; redirects/merges; validated JSON-LD	P1-P2	No orphan priority pages; zero schema errors	Crawl comparison and Rich Results/Schema validation
Week 13	Review performance and set next-quarter experiments	SEO + Analyst + Product	90-day readout; AI prompt baseline; prioritized experiment backlog	P1	Directional gains vs locked baseline; decisions documented	GSC/GA4/CWV/AI prompt review

20. Backlog مرتب بالأولوية

P	المهمة	الصفحات	المسؤول	الاعتماديات	معيار القبول
P0	Eliminate React hydration mismatch	Sitewide	Developer	Clean reproduction	No hydration errors across device/browser test matrix
P0	Unify pricing, watermark, billing, cancellation and refund terms	Pricing, Terms, checkout, download modal	Product + Legal	Plan source of truth	All surfaces match approved plan matrix
P0	Replace brand 'replacement' language and add provenance safeguards	Brands and generated outputs	Legal + Product + Editor	Legal review	Approved disclaimer visible before use and on output
P0	Audit/merge thin rapidly published content	Blog and receipt-help	SEO + Editor	GSC + crawl export	Every URL has keep/update/merge/noindex/remove decision
P1	Verify robots.txt and allow intended crawlers	Sitewide	SEO + Developer	Crawler policy decision	External fetch returns expected directives
P1	Create segmented XML sitemap index	All indexable sections	Developer + SEO	Canonical URL inventory	GSC accepts only 200/indexable/self-canonical URLs
P1	Disclose account requirement beside primary CTA	Homepage and Builder	CRO + Product	Approved copy	User can predict download requirement
P1	Instrument end-to-end builder funnel	Builder, signup, paywall	Analyst + Developer	GA4 event spec	Events fire once with required parameters
P1	Expand five highest-intent existing landing pages	Restaurant, gas, hotel, rent, Walmart	SEO + Writer + Designer	Intent briefs and legal review	Unique complete pages published and indexed
P1	Add visible breadcrumbs matching schema	Template, brand and article children	Developer	Breadcrumb component	Visible path equals JSON-LD
P1	Create author profiles and editorial/review policy	About and all guides	Editor + Founder	Verified bios	Every article links to accountable profiles
P1	Publish identifier/receipt-	New guide cluster	Expert writer	Field map and sources	Annotated guide answers

P	المهمة	الصفحات	المسؤول	الاعتماديات	معيار القبول
	anatomy pillar				priority definitions
P1	Publish original OCR/privacy benchmark	New research asset	Research + PR	Methodology/legal/privacy QA	Dataset/method/results/limitations are reproducible
P1	Replace duplicated/weak Featured On badges	Homepage	Designer + Developer	Permission/source review	No duplicate nodes; dimensions and accurate labels
P2	Create five validated vertical commercial pages	Photography, food truck, pet grooming, trainer, market	SEO + Writer	Keyword-tool/SERP validation	Each page has distinct demand, fields and internal links
P2	Improve internal anchors and contextual commerce modules	Blog/guides/templates	SEO + Developer	Cluster map	Crawl shows planned links and no orphan money pages
P2	Implement accurate WebApplication/Offer schema	Builder/Pricing	Developer + SEO	Approved plan matrix	Validator passes and visible values match
P2	Publish two permissioned case studies	Case-study library	Customer success + Writer	Customer consent	Methods, dates and evidence are transparent
P2	Run monthly AI prompt tracking	Brand/entity	SEO	Fixed prompt set	Same prompts, locale and evidence recorded monthly
P2	Create privacy-safe receipt accessibility sample	Guide + product	Accessibility specialist + Developer	Accessibility audit	Sample passes screen-reader/reading-order review
P3	Add VideoObject to real tutorial pages	Tutorials	Video + Developer	Published video and transcript	Markup exactly matches playable visible video
P3	Consider localized versions	Sitewide	Localization + SEO	Demand and support capacity	Full translated equivalents with reciprocal hreflang
P3	Create seasonal seller content	Seller hub	Writer	Seasonality validation	Updated substantive hub; no doorway city pages

21. القياس ومؤشرات الأداء

KPI	المصدر	الحساب	الوتيرة	الهدف الأولي	إذا لم يتحسن
Organic Clicks	GSC Search results	Sum clicks; separate Web and Generative AI reports where available	Weekly/monthly	Month 1 baseline; then sustained positive 28-day trend	Inspect query/page losses, indexation and SERP changes
Organic Impressions	GSC	Sum impressions by page/query/country	Weekly/monthly	Priority clusters gain qualified US impressions	Review coverage, internal links and intent match
Non-Brand Clicks	GSC query export	Clicks excluding Makecepeit and spelling variants	Monthly	Share rises from locked baseline	Expand commercial/informational winners; fix CTR/position
Average position: priority	GSC + rank tracker	Average for fixed validated	Weekly/monthly	Directional improvement	Diagnose page relevance,

KPI	المصدر	الحساب	الوتيرة	الهدف الأولي	إذا لم يتحسن
terms		keyword set; do not mix changing set		by cluster	cannibalization and authority
Keywords in Top 3/10/20	Ahrefs/Semrush or rank tracker	Count only fixed US desktop/mobile set	Weekly	Grow by stage after URLs index	Check intent, competitors and link gap
Commercial-page organic sessions	GA4 landing-page report	Organic sessions landing on /create, /templates, /brands, /pricing and money pages	Weekly/monthly	Positive trend vs baseline without lower quality	Inspect page/query and mobile funnel
Organic Leads/Sales	GA4 + billing/CRM	Purchases or qualified actions attributed to organic landing/assisted path	Weekly/monthly	Reliable tracking first; then growth vs baseline	Audit attribution and funnel event loss
Organic Conversion Rate	GA4	Organic conversions ÷ organic sessions, segmented by landing page/device	Monthly	Improve without hiding account/download conditions	Run funnel and page experiments
Assisted Conversions	GA4 advertising/paths or warehouse	Conversions where organic appears before final touch	Monthly	Establish and grow qualified assist share	Improve informational-to-commercial links
Indexed Pages	GSC Pages + sitemap	Indexed canonical URLs by section	Weekly/monthly	100% of approved priority URLs; low-value URLs intentionally excluded	Check crawl/noindex/canonical/content quality
Crawl Errors	GSC + crawler	5xx, soft 404, redirect chain, blocked resource and canonical conflicts	Weekly	Zero critical errors; no chains on priority paths	Fix templates/routes and resubmit
Core Web Vitals	GSC/CrUX + RUM	Good URLs and p75 LCP/INP/CLS	Weekly/monthly	LCP≤2.5s, INP≤200ms, CLS≤0.1 at p75	Profile slow templates and JS interactions
Referring Domains	Ahrefs/Semrush/GSC links	Relevant unique domains; separate earned/editorial from directories	Monthly	Quality/relevance growth, no numeric promise	Invest in research/partners, not bulk links
Local Pack Visibility	N/A	Not applicable to national online-only web app	N/A	N/A	Do not create city pages/GBP without a real eligible local business
Featured Snippets	Rank tracker + manual SERP sampling	Count fixed question set where site owns snippet	Monthly	Win eligible definition/table queries	Tighten answer block, headings and evidence
People Also Ask Appearances	SERP tool/manual sample	Count fixed US query set; record question and cited URL	Monthly	Directional growth	Add concise direct answers and deepen supporting context
AI Citations	GSC Generative AI report + manual platform testing	Cited Makecepeit URLs by prompt/platform	Monthly	Establish baseline, then increase qualified citations	Improve original evidence, crawlability and extractability
Brand Mentions in AI Answers	Fixed ChatGPT/Gemini/Perplexity prompt set	Prompts mentioning brand ÷ prompts tested; record rank/sentiment	Monthly	Directional increase with stable methodology	Strengthen entity corroboration and third-party mentions
Share of Voice	Rank tracker + AI prompt sheet	Visibility points for fixed keyword/prompt set divided by all tracked competitors	Monthly	Gain vs five selected direct competitors	Focus pages where a competitor repeatedly wins

KPI	المصدر	الحساب	الوتيرة	الهدف الأولي	إذا لم يتحسن
Calls/Directions/GBP clicks	N/A	Not applicable unless a real eligible location becomes part of the business	N/A	N/A	Do not manufacture local signals

لا تُحدد أهداف clicks/sales رقمية قبل baseline. في الشهر الأول يكون الهدف سلامة القياس، فهرسة الصفحات المعتمدة، إغلاق P0، وتعريف مجموعة كلمات/Prompts ثابتة. بعد ذلك تُضبط أهداف نسبية على أساس 28 يومًا أو ربع سنوي.

22. القرار النهائي

المحور	الدرجة	الأسباب
Technical SEO	70/100	HTTPS/canonical/domain redirects and indexable rendering are strong; React hydration error observed; robots/sitemap and CWV unverified; minor 404/meta and breadcrumb issues.
On-Page SEO	76/100	Titles, descriptions, H1s and canonicals are generally disciplined; priority detail pages are thin and some query/value messaging is mismatched.
Content	61/100	Large inventory and broad coverage, but representative articles lack authoritative citations and rapid publishing raises quality/cannibalization risk.
Topical Authority	67/100	40+ general templates, 348+ brands, examples and guides create breadth; depth, consolidation and expert evidence lag.
E-E-A-T	47/100	Founder/About/Privacy/Terms exist, yet credentials, author profiles, review policy, citations, case studies and external corroboration are limited.
AEO	59/100	Question headings and FAQ blocks help extraction; answers need more concise evidence-led structure, and Google FAQ rich results were removed in 2026.
GEO	41/100	Organization/WebApplication schema is present, but original data, external mentions, sameAs breadth and expert corroboration are weak; no special AI markup can substitute.
Local SEO	N/A	Not applicable: this is a national/global online web app, not a local service-area business.
CRO	55/100	Builder and CTA are clear, but download signup is disclosed late, plan copy conflicts, social proof is weak and the funnel is not evidenced.
External Authority	32/100	Only qualitative evidence was available; visible

المحور	الدرجة	الأسباب
		badges appear mostly launch/tool directories. Backlink counts and authority require Ahrefs/Semrush verification.

أول 10 مهام

1. Eliminate React hydration mismatch
2. Unify pricing, watermark, billing, cancellation and refund terms
3. Replace brand 'replacement' language and add provenance safeguards
4. Audit/merge thin rapidly published content
5. Verify robots.txt and allow intended crawlers
6. Create segmented XML sitemap index
7. Disclose account requirement beside primary CTA
8. Instrument end-to-end builder funnel
9. Expand five highest-intent existing landing pages
10. Add visible breadcrumbs matching schema

أول 5 صفحات حالية يجب تحسينها

11. /Homepage — <https://www.makecepeit.com>
12. Builder — <https://www.makecepeit.com/create>
13. Pricing — <https://www.makecepeit.com/pricing>
14. Restaurant — <https://www.makecepeit.com/templates/restaurant>
15. Walmart brand page — <https://www.makecepeit.com/brands/walmart>

أول 5 صفحات تجارية جديدة — بعد تحقق الطلب

16. templates/photography-receipt/
17. templates/food-truck-receipt/
18. templates/pet-grooming-receipt/
19. templates/personal-trainer-receipt/
20. templates/farmers-market-receipt/

أول 10 مقالات جديدة

21. Receipt Number vs Order Number vs Authorization Code
22. Transaction ID on a Receipt: Meaning and Location
23. Receipt Subtotal: Definition, Formula and Examples
24. Service Charge vs Gratuity on a Receipt
25. How Split Payments Appear on a Receipt
26. How to Correct a Receipt After It Was Issued
27. Refund Receipt: Required Fields and Example
28. How to Issue a Receipt for Zelle, Venmo or ACH
29. Personal Information That Should Never Appear on a Receipt
30. How to Create Synthetic Receipt Data for OCR Testing

أفضل 10 Quick Wins

31. إظهار account-to-download بجوار أول CTA.
32. تصحيح savings و watermark و Weekly في Pricing/Terms.
33. إزالة duplicate Featured On assets وتثبيت أبعاد الصور.
34. إصلاح duplicate robots meta في 404.
35. إظهار Breadcrumb المرئي المتطابق مع JSON-LD.
36. إعادة صياغة replacement/proof wording في brand pages.
37. إضافة Free vs Pro comparison table داخل Builder.
38. إضافة 50-70 كلمة direct answer لأهم FAQs المرئية.
39. ربط مقالات المال بال قالب المناسب بدل تكرار anchor عام إلى create/.
40. تثبيت GA4 funnel events قبل أي A/B test.

أخطاء يجب تجنبها

- إنشاء صفحة منفصلة لكل صياغة أو مدينة بلا نية/قيمة فريدة.
- الاستمرار في نشر عدة صفحات رقيقة يوميًا دون GSC/quality gate.
- ادعاء no-sign-up/no-watermark أو savings غير مطابق للمنتج.
- إضافة Review/AggregateRating أو author credentials أو AI schema غير موجودة فعليًا.
- شراء روابط أو تقديم templates كإثبات شراء/علامة أصلية.

أين تُوجّه الميزانية أولاً؟

الترتيب: (1) Technical + Product/CRO + legal/trust alignment، (2) تحسين صفحات المال ودمج المحتوى، (3) entity/E-E-A-T وأصل بحثي، (4) Digital PR وروابط بعد وجود أصل يستحق الإشارة، (5) Local SEO = لا ميزانية حاليًا.

التوقع الواقعي دون ضمان

المتوقع نوعيًا	الفترة
استقرار تقني وقياس أفضل، وضوح عرض/سعر، فهرسة صفحات الأولوية، وبدايات ظهور long-tail؛ قد لا تظهر قفزة traffic فورية.	3 أشهر
نضج clusters، تحسين non-brand visibility وصفحات المال، وإشارات أولوية للسلطة/AI citations إذا تُفُذت أصول أصلية وروابط ذات صلة.	6 أشهر
تراكم authority وTopical depth وإمكان منافسة أوسع في commercial queries وAI recommendations؛ يتوقف على الجودة والروابط والمنتج والتنفيذ المستمر.	12 شهرًا

ما يحتاج إلى بيانات إضافية للتأكد

المصدر المطلوب	البيانات	لماذا
Google Search Console	16 شهرًا: Queries/Pages/Country/Device/Search appearance, Pages indexing, Sitemaps, CWV, Links, Generative AI report	تحديد الطلب الحقيقي, cannibalization, AI clicks و indexability, non-brand, snippets
GA4	Landing pages, source/medium, device, funnel events, purchases, assisted paths, cohorts	قياس drop-off والتحويل الفعلي من البحث
Ahrefs/Semrush/Keyword Planner	US exact/phrase volumes, KD, SERP features, rank history, keyword gap	تحويل تقييم الكلمات من نوعي إلى رقمي وترتيب الأولويات
أداة Crawl	URLs, status, canonical, robots/noindex, كل titles/H1, depth, internal links, images, schema, JS rendering	التحقق من المشكلات sitewide والصفحات اليتيمة/المكررة
أداة Links	Referring domains/pages, anchors, new/lost, toxic patterns, link intersect	قياس Authority/Link Gap دون اختراع أرقام
بيانات المنتج/الدفع	Free/Watermark, plans, قواعد refund/cancel, signup/download/paywall conversion	تصحيح الوعد التجاري وتحديد أفضل تجربة
مراجعة قانونية/ضريبية	brand templates, proof-of-purchase language, tax/rent/healthcare guidance	خفض مخاطر الخداع والعلامات والادعاءات القانونية

الخلاصة

ابدأ بإغلاق P0 وبناء baseline، ثم استثمر في عمق الصفحات والأدلة الأصلية. لا توسع عدد URLs قبل أن يثبت كل URL نية مختلفة وقيمة فريدة ومسار تحويل واضح.
